IMPORTANT TESTING INFORMATION-PLEASE READ

You will receive a packet if you have been referred for sleep testing at the Westerville Sleep Diagnostic Center. Enclosed you will find useful information regarding the most common sleep disorders, pre-test Do's and Do Not's, testing procedures, a Sleep Questionnaire to complete and return (in the enclosed envelope), as well as a map to the Center. Please thoroughly read all the information and contact us with any questions you may have.

We will be using insurance information provided to us by your referring physician to verify eligibility and obtain pre-certification if needed. If you have any changes in your insurance coverage, please notify us immediately. If your insurance company requires a referral from your Primary Care Physician to the Center, you must obtain one prior to your test date. Please contact your carrier to see if this is required for Outpatient Diagnostic Testing. Failure to obtain proper authorization/referral may affect your coverage or result in cancellation of your test procedure(s). While we make every effort to verify your insurance coverage prior to the test date, we cannot guarantee payment.

Your sleep study results will be available approximately 2-3 weeks after testing. We cannot release results over the phone. You should schedule a follow-up appointment with Dr. M. Qadoom for three weeks after your initial test date to discuss your test results and recommended treatment options. To insure that your results are sent promptly to the correct physician, please notify us of the following: name of the physician you will be seeing and the date and time of the appointment.

Please do not hesitate to contact us with any questions or concerns.

Sincerely,

Pulmonary and Sleep Consultant Staff
